

The INBA will be broadcasting the **All Female Classic** live on FM 97.0 MHz

It will be a quality FM transmission albeit very short range, limited to the venue and pump areas. The purpose is so competitors (and spectators) can hear the progress of the event, placing announcements and such. We understand it's vital competitors keep in touch with the running of the event. It's a great solution - even spectators can take a break and know when to return to watch their favourite class or competitor. Now, competitors can be utilising the mirrors in the rest rooms - but still listen to the show on their phone!

We are very grateful to Ian Adams Productions, who solves the technical solution of keeping competitors in touch and providing the technology required. So tune your smartphone, or FM radio to 97.0 mhz so you won't miss out on any of the live event action and placings as they happen.
